## Our Portfolio

### Virtual IGLU Course

Taught by our Institute for University Management and Leadership (IGLU) since 1983, this course provides managers of higher education institutions with the necessary tools and knowledge to enhance their management skills in the areas of planning, academics, resources, personnel and of projects. Through its five modules, it boosts the response capacity of the teams to the competitive demands of the current context.

### Diploma in Internationalization of Higher Education (DIES)

This diploma is aimed at professional teams linked to the internationalization of higher education. Divided into three modules, it focuses its efforts on developing skills for planning in the areas of international relations, creating strategies for academic mobility, and using proactive tools for the development of the international curriculum.

### "Communication of scientific production and knowledge visibility" Course

Through this training experience, researchers and academics will be able to learn about and apply different tools to optimize the visibility and positioning of their scientific and academic production. The content, divided into three modules, allows you to develop scientific policy strategies to position your institution in the scientific-technological field.

### Inter-American Training Program in Management of Innovation Environments

The purpose of this program is to facilitate the appropriation and development of capacities for leadership and management of innovation ecosystems that promote an impact on the knowledge economy and society. It contributes to the training of innovation directors and managers, researchers and public administration officials linked to the development of Science, Technology and Innovation strategies.

### Policies with a Gender Perspective in HEIs Course

Product of the Space for Women Leaders of Higher Education (EMULIES), this course results from the need to rethink higher education as a space of equality and equity. Aimed at those in charge of gender areas, the work of three modules focuses on the development of skills and abilities to analyze and design policies for the inclusion and equal opportunities between men and women in HEIs.

## IOHE Scholarship Program

Made up of the “*Beca Solidaridad*” and the “*Beca Fidelidad*”, this program seeks to strengthen the higher education institutions that are IOHE members, facilitating access to their training activities by offering full and partial scholarships.

## Virtual Mobility Space in Higher Education (eMOVIES)

Virtual academic exchange initiative that offers students the opportunity to take courses from other IOHE member institutions, enriching their training process through mobility and internationalization experiences.
